

▶ **TOP 10 REASONS TO USE THE SCIENCE IP SEARCH SERVICE**

Science IP[®] provides fast, accurate, and comprehensive searches of the world's scientific and patent literature. Our expert staff of researchers have in-depth knowledge of scientific disciplines, as well as many years of patent searching experience.

Why would you want to use Science IP? Here are ten good reasons:

1

High Quality Results

- Research is customized to your exact specifications
- We search authoritative sci-tech databases including the CAS RegistrySM, Derwent World Patents Index[®], and the Merged Markush Service (MMS)

2

Experienced Research Team

- Our research staff know the databases we search as well or better than anyone in the world
- We have successfully completed thousands of searches
- Collectively, our research staff have over 180 years of searching experience

3

Technical Advisory Team

- Subject Matter Experts in key areas of science
- The Technical Advisory Team is comprised of highly-educated, highly-trained scientists employed by CAS

4

Cost-Effective

- Time and Materials model (hourly fee + online database costs)
- No retainer or commitment required. Ideal for outsourcing a search
- We will work within your budget and provide you with the best information for the price
- Our research staff know how to extract the most value from the databases

5

Fast

- The standard turn-around is 2–5 days
- 24 hour “rush” turn-around is available

(continued)

6

Analysis Services

- Our research staff are experts in using STN[®] AnaVist[™] and can provide specific answers to your competitive intelligence questions
- Our experts can clean and harmonize large research sets and provide an environment where you can continue to explore on your own

7

Connection Tables from CAS

- The only legitimate source of computer-readable structural information from CAS
- CAS experts' in-depth knowledge of structures and database building ensures that you will receive high-quality structural information

8

Trust

- Science IP is used daily by chemical and pharmaceutical companies, and also law firms around the world for patenting and litigation purposes
- Information professionals and patent attorneys know and trust us

9

Mitigate Risk

- Science IP provides research for patent infringement and litigation cases
- When you need to "leave no stone unturned," Science IP is the right choice

10

Reliability

- Science IP is the search service of CAS
- CAS has been in business for 100 years and has provided a search service for more than 20 years
- You can rely on Science IP and CAS to deliver comprehensive search results for patents and scientific information

The Science IP Technical Advisory Team

As the leading provider of scientific information in chemistry and related sciences, CAS employs highly-educated, highly-trained scientists from incredibly diverse areas of science. The Science IP Technical Advisory Team is drawn from this deep resource of scientific knowledge; their assistance will ensure that Science IP can retrieve the best possible research results for your project. Following is a **partial list** of the areas of specialization of the Technical Advisory Team:

Biochemistry
Carbohydrates
Coordination chemistry
Cosmetics
Electronics
Food Science
Inorganic chemistry

Markush
Materials Science
Medical Devices
Molecular biology & genetics
Nutraceuticals
Organic chemistry

Organometallics
Patents
Petroleum
Pharmaceuticals & Pharmacology
Polymers
Property Data

Reactions
Regulatory
Sequences
Stereochemistry
Synthetic chemistry
More...

If you do not have the time, resources, or needed scientific or technical expertise to perform a comprehensive search, we can help. From an exhaustive search to a focused report, Science IP ensures you'll have no surprises.

How do I request a search?

For additional information or to request a search, please visit our web site at www.ScienceIP.org or by Telephone:
